

## ERRATUM

It has been called to our attention by M. Estela de Lara and Carlos Chavarría K. that in the paper "Thirteen-Color Photometry of 1380 Bright Stars" (*Rev. Mex. Astron. Astrof.*, **1**, 299, 1975), the entry for filter 58 in Table 3 should read +0.360, not +0.670.

HAROLD L. JOHNSON AND RICHARD I. MITCHELL

## ERRATUM

In the paper "On an H II Condensation in NGC 2175" (*Rev. Mex. Astron. Astrof.*, **2**, 59, 1977), the HD number of the star exciting NGC 2175 has the numbers 0 and 2 inverted, excepting one mention of it, on p. 60, where it is correctly written. Thus HD 40288 should read HD 42088. This correction should also be applied to the figures.
