

## ERRATA

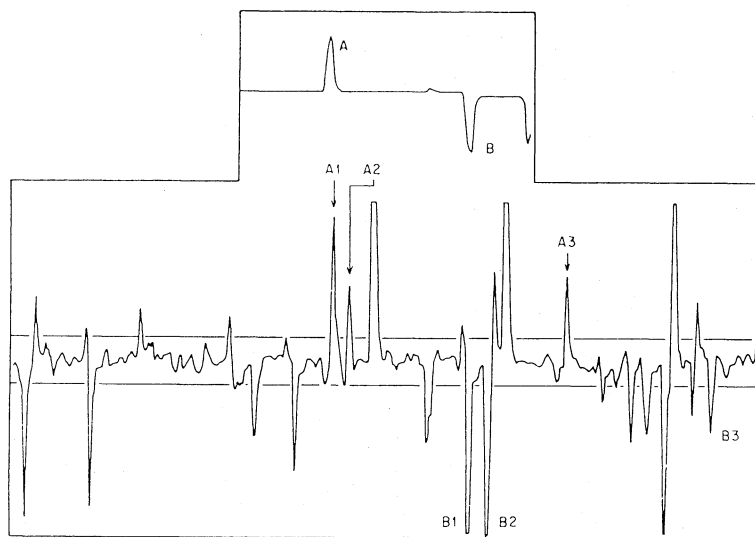

**‘Distribution and Studies of the Infrared Stellar Population in the Galaxy. I. The Model’** by R.A. Ruelas-Mayorga, published in RevMexAA, Vol. 22 (1991), pp. 27-41 should be ammended as follows:

Figures 3 through 7: Vertical axis reads  $\log N$  (stars/mag sq deg) (x10); it should read  $\log N$  (stars/mag sq deg).

Figures 8 through 17: Vertical axis reads  $\log N$  (stars per unit area) (x10); it should read  $\log N$  (stars per unit area).

**‘Distribution and Studies of the Infrared Stellar Population in the Galaxy. II. The Data Base’** by R.A. Ruelas-Mayorga, published in RevMexAA, Vol. 22 (1991) pp. 43-97 should be ammended as follows:

Figure 1 should look like this:

Figures 2 through 40 and 44: Vertical axis reads  $\log N$  (stars per unit area) (x10); it should read  $\log N$  (stars per unit area).

Figures 42 and 45: Vertical axis reads J-H (x10); it should read J-H.

Figure 43: Vertical axis reads J-H (x10); it should read J-H. Horizontal axis reads H-K (x10); it should read H-K.

Figure 49: Vertical axis reads K(obs) (x10); it should read K(obs). Horizontal axis reads (J-K) (obs) (x10); it should read (J-H) (obs).

Figure 50: Vertical axis reads K(O) ( $\times 10^{-1}$ ); it should read K(O) ( $\times 10^{+1}$ ). Horizontal axis reads (J-K)(O) (x10); it should read (J-K)(O).

Figure 51: Horizontal axis reads (J-K)(O) (x10); it should read (J-K)(O).
