

## AUTHOR INDEX

- Abt, H. A.** Symposium Summary. *H. A. Abt*, 117
- Abt, H. A.** The Tonantzintla Search for High Luminosity Stars. *H. A. Abt*, 65
- Aguilar, L. A.** Musings on “Densidades, Potenciales y Funciones Asociadas a una Galaxia Reducida” by Poveda et al. (1960). *O. López-Cruz, L. A. Aguilar, & C. Añorve*, 100
- Alcalá, J. M.** “Flare stars in the Orion Nebula Region” by Haro & Chavira (1969). Overview from Tonantzintla plates to the X-ray Space missions. *J. M. Alcalá*, 48
- Allen, C.** Overview and current relevance of “Run-away stars as the result of the gravitational collapse of proto-stellar clusters” by Poveda, Ruiz, & Allen (1967). *C. Allen*, 21
- Añorve, C.** Musings on “Densidades, Potenciales y Funciones Asociadas a una Galaxia Reducida” by Poveda et al. (1960). *O. López-Cruz, L. A. Aguilar, & C. Añorve*, 100
- Arellano Ferro, A.** “Photoelectric Photometry of Cepheids” by Mitchell et al. (1964): An overview of its astrophysical relevance. *A. Arellano Ferro*, 39
- Cornejo, A.** The First Years of Optics in Mexico and the role of the Boletín de los Observatorios de Tonantzintla y Tacubaya on its development. *A. Cornejo*, 109
- Costero, R.** Review of “The Law of Interstellar Extinction in Orion” by Johnson & Mendoza (1964) and on “The Extinction Law in the Orion Nebula” by Costero & Peimbert (1970). *A. M. Watson & R. Costero*, 9
- Crawford, D. L.** Review of “Multicolor Photometry of Stellar Aggregates” paper by Mendoza (1967). *D. L. Crawford*, 36
- Cruz-González, I.** Comments on “Infrared Photometry of V1057 Cyg” by Mendoza (1971). *I. Cruz-González*, 57
- Georgiev, L. N.** Comments on “BVRI-Photometry of the Brightest Stars in the Magellanic Clouds” by Mendoza (1970). *L. N. Georgiev*, 30
- Lester, J. B.** Review of “The colors, Bolometric corrections and effective temperatures of the bright stars” by Johnson (1964). *J. B. Lester*, 77
- López-Cruz, O.** Musings on “Densidades, Potenciales y Funciones Asociadas a una Galaxia Reducida” by Poveda et al. (1960). *O. López-Cruz, L. A. Aguilar, & C. Añorve*, 100
- López-Cruz, O.** Reminiscences of “The Masses of Spherical Galaxies M32, a likely Application” by Poveda (1958). *O. López-Cruz*, 97
- López-Cruz, O.** Historical Note. *S. Torres-Peimbert, O. López-Cruz, & M. Peimbert*, xi
- López-Cruz, O.** Informal Introduction. *O. López-Cruz*, xiii
- López-Cruz, O.** Preface. *S. Torres-Peimbert & O. López-Cruz*, vii
- Mayya, Y. D.** Commentary “On Two H II Regions near the nucleus of M82” by Recillas-Cruz & Peimbert (1970): The archetype Galaxy of the Starburst Phenomena. *E. Recillas, Y. D. Mayya, & M. Peimbert*, 14
- Peimbert, A.** Retrospective on “Chemical abundances in H II regions and their implications” by Peimbert & Costero (1969). *M. Peimbert & A. Peimbert*, 1
- Peimbert, M.** Commentary “On Two H II Regions near the nucleus of M82” by Recillas-Cruz & Peimbert (1970): The archetype Galaxy of the Starburst Phenomena. *E. Recillas, Y. D. Mayya, & M. Peimbert*, 14
- Peimbert, M.** Retrospective on “Chemical abundances in H II regions and their implications” by Peimbert & Costero (1969). *M. Peimbert & A. Peimbert*, 1
- Peimbert, M.** Retrospective on “The Search for Blue Starlike Objects in the direction of the Poles of the Galaxy”, by Haro & Luyten (1962). *M. Peimbert*, 59
- Peimbert, M.** Historical Note. *S. Torres-Peimbert, O. López-Cruz, & M. Peimbert*, xi
- Peña, J. H.** Review of “Estudio Espectroscópico y Fotométrico del Cúmulo Estelar en Coma Berenices” by Mendoza (1963). *J. H. Peña*, 26
- Peña, M.** Commentary on “Electron temperatures and densities in PNe” by Peimbert (1971). *M. Peña*, 91
- Percy, J. R.** Review of “Multicolor Photometry of Long Period Variables” by Mendoza (1967). *J. R. Percy*, 44
- Philip, A. G. D.** 1969 to 2010: Multicolor Photometric Observations of Population II Field Horizontal-Branch Stars. *A. G. D. Philip*, 75

- Recillas, E.** Commentary “On Two H II Regions near the nucleus of M82” by Recillas-Cruz & Peimbert (1970): The archetype Galaxy of the Starburst Phenomena. *E. Recillas, Y. D. Mayya, & M. Peimbert*, 14
- Rodríguez, L. F.** Commentary on the paper “The H-R Diagrams of Young Clusters and the Formation of Planetary Systems” by Poveda (1965). *L. F. Rodríguez*, 83
- Terlevich, E.** On “Preliminary Note on Blue Emission-line Galaxies” by Haro (1956). *E. Terlevich*, 69
- Torres-Peimbert, S.** Planetary Nebulae I. Photoelectric Photometry by Peimbert & Torres-Peimbert (1971) revisited. *S. Torres-Peimbert*, 87
- Torres-Peimbert, S.** Historical Note. *S. Torres-Peimbert, O. López-Cruz, & M. Peimbert*, xi
- Torres-Peimbert, S.** Preface. *S. Torres-Peimbert & O. López-Cruz*, vii
- Walborn, N. R.** The O2–O3 Stars Presaged in the Boletín de los Observatorios de Tonantzintla y Tacubaya. *N. R. Walborn*, 34
- Watson, A. M.** Review of “The Law of Interstellar Extinction in Orion” by Johnson & Mendoza (1964) and on “The Extinction Law in the Orion Nebula” by Costero & Peimbert (1970). *A. M. Watson & R. Costero*, 9
