

## LIST OF PARTICIPANTS

### LIST OF PARTICIPANTS

|                                   |                                                         |
|-----------------------------------|---------------------------------------------------------|
| Eva Alcohóladó-Feltström          | LOC Málaga, Spain                                       |
| Alberto Águeda Maté               | GMV Tres Cantos, Spain                                  |
| Juan Carlos Aznar López           | Sociedad Malagueña de Astronomía, Spain                 |
| Recep Balbay                      | ERCIYES Univ. Uzaybimer, Turkey                         |
| Fatemeh Bahrani                   | Shiraz University, Iran                                 |
| Diane Bérard                      | Observatoire de Paris-Meudon – LESIA, France            |
| David F. Bersier                  | Astrophysics Research Institute, Liverpool, UK          |
| María D. Caballero-García         | ASU-CAS, Czech Republic                                 |
| Juan Cabello                      | IAA-CSIC Granada/Univ. de Málaga, Spain                 |
| Alberto Castellón                 | Universidad de Málaga, Spain                            |
| Sebastian Castillo Carrión        | Universidad de Málaga, Spain                            |
| Alberto J. Castro-Tirado          | IAA-CSIC Granada, Spain                                 |
| Manuel Catalán                    | Real Observatorio de la Armada, San Fernando, Spain     |
| Chris M. Copperwheat              | Astrophysics Research Institute, Liverpool, UK          |
| Ronan Cunniffe                    | IAA-CSIC Granada, Spain                                 |
| Vicente Díaz                      | DHV Technology, Spain                                   |
| Murat Dindar                      | TUBITAK National Observatory, Turkey                    |
| Emre Dogan                        | Atatürk University – ATASAM, Turkey                     |
| Francisco Ángel Espartero Briceño | Observatorio Andaluz de Astronomía, Spain               |
| Yufeng Fan                        | Yunnan Observatories, CAS China                         |
| Mads Fredslund Andersen           | Stellar Astrophysics Centre, Aarhus University, Denmark |
| Pablo Galindo Salgado             | IAA-CSIC Granada, Spain                                 |
| Francisco Javier Gálvez Fernández | Obs. Astronómico del Torcal, Spain                      |
| Pavel Gabor SJ                    | Vatican Observatory, Tucson, USA                        |
| Alfonso García Cerezo             | Universidad de Málaga, Spain                            |
| Kosmas Gazeas                     | University of Athens, Greece                            |
| Franco Giovannelli                | INAF-Ist. di Astr. e Planetologia Spaziali, Italy       |
| Esteban González                  | Universidad Politécnica de Madrid, Spain                |
| Bulent Guzsav                     | Atatürk University – ATASAM, Turkey                     |
| Sergiy Guziy                      | Nikolaev National University, Ukraine                   |
| Lorraine Hanlon                   | University College Dublin, Ireland                      |
| Sheida Hassani                    | Sharif University of Technology, Iran                   |
| José María Hermoso                | INDRA Madrid, Spain                                     |
| David Hiriart                     | Instituto de Astronomía, UNAM, Mexico                   |
| Youdong Hu                        | IAA-CSIC Granada, Spain                                 |
| José Miguel Ibáñez Mengual        | IAA-CSIC Granada, Spain                                 |
| Martin Jelinek                    | ASU-CAS Ondrejov, Czech Republic                        |
| Helen Jermak                      | Astrophysics Research Institute, Liverpool, UK          |
| Soomin Jeong                      | SKKU South Korea IAA and IAA-CSIC Granada, Spain        |
| Chris Johnson                     | University of Arizona, Steward Observatory, USA         |
| Sergey Karpov                     | Special Astrophysical Observatory, SAO-RAS, Russia      |

## LIST OF PARTICIPANTS

|                             |                                                                   |
|-----------------------------|-------------------------------------------------------------------|
| Petr Kubanek                | FZU, Czech Republic                                               |
| Akash Kumar                 | Indian Institute of Technology, Gandhinagar, India                |
| Vladimir Lipunov            | Moscow State University, SAI, SINP, Russia                        |
| Aquib Moin                  | University of Johannesburg, South Africa                          |
| David Murphy                | University College Dublin, Ireland                                |
| Ana María Nicuesa Guelbenzu | Thüringer Landessternwarte, Tautenburg, Germany                   |
| Jose Manuel Núñez Trujillo  | Sociedad Malagueña de Astronomía, Spain                           |
| Lukasz Obara                | Faculty of Physics University of Warsaw, Poland                   |
| Samantha R. Oates           | IAA-CSIC                                                          |
| Ferhat Fikri Özeren         | ERCIYES Univ. Uzaybimer, Turkey                                   |
| Shashi B. Pandey            | ARIES Nainital, India                                             |
| Murat Parmaksizoglu         | TUBITAK National Observatory, Turkey                              |
| Volker Perdelwitz           | Hamburger Sternwarte, Germany                                     |
| Carlos Pérez del Pulgar     | Universidad de Málaga, Spain                                      |
| Alexei Pozanenko            | Space Research Institute, IKI, Russia                             |
| Theodor Pribulla            | Astronomical Institute, Slovak Rep.                               |
| Juan Manuel Ramos           | Sociedad Malagueña de Astronomía, Spain                           |
| José Joaquín Rodés Roca     | Universidad de Alicante, Spain                                    |
| Vicente Ruiz                | ESA, Spain                                                        |
| José Luis Salto             | Sociedad Malagueña de Astronomía, Spain                           |
| Noelia Sánchez Ortiz        | DEIMOS, Spain                                                     |
| Tassilo Schweyer            | MPI für extraterrestrische Physik, Garching, Germany              |
| Scott Swindell              | University of Arizona, Vatican Advanced Technology Telescope, USA |
| Juan Carlos Tello           | IAA-CSIC Granada, Spain                                           |
| Martin Topinka              | UCD, Ireland                                                      |
| Julia Toval Requena         | Sociedad Malagueña de Astronomía, Spain                           |
| Blanca Troughton            | Sociedad Malagueña de Astronomía, Spain                           |
| Miguel A. Vázquez           | DHV Technology, Spain                                             |
| Ignacio Vico                | German-Spanish, Calar Alto Observatory, Spain                     |
| Francesc Vilardell          | Institut de Ciències de l'Espai (ICE), Spain                      |
| Stanislav Vitek             | FEL-CVUT, Czech Republic                                          |
| Yoichi Yatsu                | Tokyo Institute of Technology, Japan                              |
| Cahit Yesilyaprak           | ATATURK Univ. - ATASAM Turkey                                     |
| Staszek Zola                | Astr. Obs. Jagiellonian Univ., Poland                             |
