

"The multi-wavelength view of Hot, Massive Stars" Proceedings available

We would like to inform you that the proceedings of the 39th Liège International Astrophysical Colloquium ("The multi-wavelength view of Hot, Massive Stars") are now online and the individual articles can be accessed from the website of the Bulletin of the Royal Scientific Society of Liège:

<http://popups.ulg.ac.be/SRSL/sommaire.php?id=2361>

We have also prepared a single pdf file with all the contributions of the conference that can be retrieved from

<http://orbi.ulg.ac.be/bitstream/2268/82726/1/fullLIAC2010.pdf>

We thank all those people who contributed in one way or the other to these proceedings (either as authors, referees or in any other way).

The editors,

Gregor Rauw, Michaël De Becker, Yvan Nazé, Jean-Marie Vreux & Peredur Williams
