PREFACE

The "Emission Lines from Jet Flows" workshop took place on November 13–17, 2000 in Isla Mujeres (México). Isla Mujeres proved to be a very agreeable venue, and all of us enjoyed the beaches, food and other attractions of the island, as well as the interesting and stimulating conference sessions and scientific discussions.

We would like to thank the Scientific Organizing Committee:

L. Binette, K. H. Böhm, W. van Breugel, J. Cantó, J. Dyson, P. Ferruit, J. Raymond, A. Raga, B. Reipurth, L. F. Rodríguez, H. Röttgering, C. Tadhunter, M. Villar-Martín, and A. Wilson

for the preparation of the quite effective scientific program, and the Local Organizing Committee:

L. Arias, L. Binette, V. Forero, E. de la Fuente, D. González, R. González, W. J. Henney, A. Hidalgo, L. López-Martín, G. Muñoz, A. Raga, W. Steffen, J. Sánchez, E. Themsel, O. Toledano, L. Uscanga, P. Velázquez,

for their very competent management of the event.

These Proceedings include the invited and contributed talks. The poster contributions have been published in the Poster Proceedings (Emission Lines from Jet Flows, eds. P. F. Velázquez and R. González, 2000), which were distributed to the participants at the beginning of the workshop.

We would like to acknowledge financial support from the Instituto de Astronomía (UNAM), Coordinación de la Investigación Científica (UNAM), CONACyT (grants 32753-E, 27546-E, and 32139-E), the municipality of Isla Mujeres, and the John Simon Guggenheim Memorial Foundation. We would also like to thank the Instituto de Astronomía (UNAM) for support with the logistics and the local organization of the workshop. Finally, we would like to thank Isaac Sulub Martínez (the director of the tourism office of Isla Mujeres) for his support and help in organizing this event.
